

## Covid-19 Testing sites in East Sussex

There are now testing sites across East Sussex in the following locations:

- Bexhill (walk in and drive through)
- Eastbourne (walk in only)
- Gatwick (drive through only)
- Plumpton (drive through only)

Testing is also available through mobile testing units (MTUs) which are present for up to three days in key locations across the county.

Please only attend testing sites if you have an appointment and only book a test if you have symptoms. There is more information about testing on the East Sussex County Council [website](#).
